Parts Manual

Publication No. 33007-6

SAFETY PRECAUTIONS

1. Read the operators manual carefully and familiarize yourself with the operation of all controls, safety equipment and safety precautions before operating this loader.
2. Always fasten the seat belt before starting or operating this loader.
3. Do not operate this loader without using seat bar, seat belt and operators guard.
4. Do not operate this loader unless all safety and instruction decals are in place and all safety equipment, shields, are in place and in proper working condition.
5. Do not get off the loader without first, lowering boom arms, stopping engine, engaging parking brake — foot pedal lock — neutral centering device and removing key from ignition. Cycle the pedals and ensure they are locked in neutral before getting out of the loader.
6. Do not park on an incline. If necessary to park on an incline park across the slope — lower lift arms and ground bucket — engage the parking brake and block the wheels.
7. Do not exceed rated lift capacity of this loader.
8. Do not drive across a slope. Always go up or down a slope with the heavy end of the loader pointing up towards the top of the slope.
9. Do not allow anyone to ride on loader with the operator.
10. Always operate in a well ventilated area. Do not operate in atmosphere with explosive dusts or gasses.
11. Avoid jerky turns, starts or stops. Reduce operating speed on rough ground and slopes.
12. Keep load low — do not travel or turn with boom arms up.
13. Watch for others when operating.
14. Do not add fuel to the loader when the engine is running or is hot. No smoking.
15. Do not get under raised boom unless boom lock is engaged. Always engage boom lock before doing any servicing which requires the boom be up.
16. Do not attempt to repair or tighten any hydraulic hoses or fittings with the engine running and the hydraulic system is under pressure.
17. Replace all missing, illegible, or damaged safety and warning decals.
18. Do not modify or alter or permit anyone to modify or alter this equipment or any of its components.
19. Do not bypass the starter safety switch. Consult your dealer if your safety starter controls are malfunctioning.

SAFETY EQUIPMENT

The loader is equipped with the following safety equipment for your protection. Take care of them and inspect their condition daily.

Safety Belt — Check seat belts for frayed or cut webbing, damaged buckles or loose mounting brackets.

Operator Guard (ROPS) — Check for damage or loose mountings. Never remove protective screens.

Safety Treads/Warning Decals — Keep safety treads clean. Check for missing or damaged decals. Replace worn, damaged or missing safety treads or decals.

Shields — Keep all protective shields in place.

Seat Bar/Parking Brake/Foot Pedal and Control Lever Lock — Check operation and repair or replace as required.

Boom Locks — Check operation and repair or replace as required.

Quick-Tach Lock — Check operation and repair or replace as required.

Operating Lights — Check operation of all lighting.

EQUIPMENT

It is important when ordering replacement parts or making a service inquiry to provide both the model number and serial number of your Thomas loader. The serial number plate is located at the rear of the machine on the right hand side above the rear door.

R. H. and L. H. when mentioned in the manual is always referred from the drivers seat looking in a forward position.

THOMAS EQUIPMENT LIABILITY WARRANTY

THOMAS EQUIPMENT LIMITED (Hereinafter referred to as the "Company") warrants each new Thomas S/S Loader sold by the Company to be free from manufacturing defects when used in normal service for a period of twelve [12] months*, or 1000 hours, whichever occurs first, commencing with delivery to the original user, if operated according to manufacturer instructions and by a competent and careful operator. This warranty shall not apply to the loader or any part thereof which has been subject to misuse, negligence, alteration, or accident or which shall have been repaired outside of an authorized Thomas dealer place of business.

The Company's obligation under this warranty is expressly limited to the replacement or repair at Thomas Equipment Limited, Centreville, New Brunswick, or at a designated Thomas Dealer, of such part or parts which in the opinion of the Company have been defective. The Company shall not be liable for consequential labour costs or transportation charges in connection with the replacement or repair of defective parts.

This warranty to repair applies only to new and unused Thomas S/S Loaders which after shipment from the factory have not been altered, changed, repaired, or treated in any manner whatsoever and does not extend to trade accessories though sold or operated with the Company's loader. Trade accessories such as, but not limited to, engines, tires, batteries, are subject to the warranty of their respective manufacturers.

The Company and/or its authorized Thomas dealers shall not be liable for consequential damages or contingent liabilities for the fitness of any Thomas S/S Loader for any particular purpose.

This warranty is expressly in lieu of any other express or implied warranty, condition or guarantee of this Thomas S/S Loader or any part thereof, including any implied warranty or condition of merchantability or fitness and of any other obligations on the part of the Company or the selling dealer.

No representative of the Company has authority to change this warranty in any manner whatsoever and no attempt to repair or promise to repair or improve the Thomas S/S Loader covered by this warranty by any representative of the Company shall waive or change or extend this warranty in any manner whatsoever.

N.B. Read and practice your Thomas S/S Loader operating and servicing instructions. Failure to do this may void your warranty.
